## Un'organizzazione fondata su razionalità del sistema, esperienza, innovazione

GD DORIGO è il risultato di quarant'anni di investimenti continui, finalizzati al miglioramento dell'ambiente produttivo con una particolare cura delle strutture che ospitano le linee di trasformazione della materia e di realizzazione delle porte finite.

### **An organisation founded on a rational system, experience and innovation.**

GD DORIGO today is the result of forty years of on-going investments aimed at improving its manufacturing environment, paying special attention to the structures which house the lines for processing and manufacturing the finished product.

## Il cuore dell'impresa

GD DORIGO rappresenta una delle principali realtà industriali italiane che ha saputo evolvere l'eccellente maestria artigiana in processi d'industrializzazione avanzati, nell'ambito della produzione di porte d'arredo per interni.

### **The heart of the company.**

GD DORIGO is one of the main Italian manufacturing companies able to manage craftsman expertise and develop it into advanced engineering processes, specifically focused on the design and manufacture of interior doors.

## Il lab del Made in Italy aziendale dove prendono forma le nuove idee

Il Design in GD DORIGO è da sempre una delle principali leve strategiche su cui l'azienda ha poggato la propria capacità di distinguersi nel mondo dei produttori di porte per interni. Tutto nasce in un "laboratorio del made in Italy" che dà forma alle nuove idee e stimola sperimentazioni costruttive trasformandole in porte di successo.

### **GD DORIGO, a lab where new ideas are shaped.**

Design has always been a strategic asset for GD DORIGO, one which distinguishes the company from other manufacturers of interior doors. It all began in a real laboratory for the 'Made in Italy' label, where new ideas take shape and construction experiments are carried out.

## L'impegno per la qualità e la sicurezza sviluppato incessantemente giorno per giorno è la base della filosofia produttiva di GD DORIGO

Un istituto autorizzato, operante secondo le normative internazionali ha riconosciuto che GD DORIGO lavora in un sistema aziendale certificato secondo le normative UNI EN ISO 9001: 2008. La certificazione conferma ufficialmente il giudizio degli acquirenti, che da sempre apprezzano i prodotti e i servizi dell'azienda.

### **Total everyday commitment to quality and safety is the industrial philosophy of GD DORIGO.**

An internationally recognised authorised institute has acknowledged that GD DORIGO operates according to UNI EN ISO 9001: 2008 standards. Certification officially confirms the judgement of our customers, who have always appreciated the company's products and services.

## Professional door

### Porte ad uso professionale e porte REI

GD DORIGO ha intrapreso un viaggio nel mondo dell'edilizia civile ed industriale, commerciale e pubblica, quali ospedali, cliniche private, scuole, ecc. che hanno portato alla realizzazione delle collezioni Steel, Metal, Aluminium e Plastic; non più semplicemente porte in legno ma porte ad uso professionale e tagliafuoco (porte REI), che rispondono al meglio alle esigenze igieniche e di resistenza meccanica con l'impiego di materiali robusti in grado di garantirne una elevata durabilità nel tempo e rispetto delle normative di legge.

### Professional Doors

GD DORIGO has now begun a new journey into the world of civil, industrial, commercial and public buildings, such as hospitals, private clinics, schools, etc. that has led to the creation of our new Collections: Steel, Metal, Aluminium and Plastic. They are not simple wooden doors, but achievements that respond better to the needs of hygiene and mechanical strength, using robust materials that ensure high durability for all products.

**Note**

Le fotografie dei prodotti ed i campioni dati al cliente, hanno valore puramente indicativo e pubblicitario. Il cliente non potrà fondare alcun reclamo su eventuali differenze tra la merce fornita e quanto risulta dal materiale dimostrativo in suo possesso. La GD Dorigo Spa, si riserva inoltre la facoltà di apportare ai propri prodotti, le migliorie di carattere tecnico e costruttivo che riterrà opportune, in qualsiasi momento.

**Notes**

Photos of products and samples given to customers have only indicative and advertising value. Therefore, any differences between the supplied goods and samples in the customer's possession cannot be grounds for claims. GD Dorigo Spa reserves the right to make technical, construction or design changes at any time and without prior notice.
