**PIRNAR's** digital world!

[WWW.PIRNAR.CO.UK](http://WWW.PIRNAR.CO.UK)

**PIRNAR.**

We believe in miracles.

We believe in the boundless potential of the human imagination.  
We believe in a future that pushes the limits of what is possible. We are proud  
to be trend creators and the first choice for those with exquisite taste,  
thanks to the best of our products.

For those who know that nothing is impossible.

**For you.**

A stylized, handwritten signature in red ink, appearing to read "Roman Pirnar". The signature is fluid and cursive, with a prominent flourish at the end.

Roman Pirnar

*Owner and CEO, Pirnar d. o. o.*

---

# PIRNAR PREMIUM

## **WONDERFUL MASTERPIECES**

You can recognise any exquisite house by its entrance. The sophisticated lines of the PIRNAR *Premium* collection give character to your home, as your eyes give character to your face. They endow it with expression and depth, as well as inspire respect and admiration. PIRNAR *Premium* entrances are distinguished by their imaginative combination of materials, patterns, combinations and intricate details that will delight the eye, even decades later. Matte or shiny smooth stainless steel, aluminium, precious wood and glass invite you to touch them and feel their solidity and grandeur.

---

## BE ADMIRERD

Your home is a temple. It deserves to be secured by a sturdy, wonderfully elegant entrance. An entrance that reveals who you are through its shapes, materials and innovative features. *Premium* knows how to impress. It reflects beauty, perfection and exceptionality ... as well as endurance, determination and courage. The *Premium* entrance is impossible to miss during the day, but its special lighting attracts even more attention at night. When you return home, tired at the end of the day, a simple glance at the elegant shapes, accented by the soft discreet lighting, is relaxing in itself.

You will not be the only one enjoying the beauty of the entrance. It will make visitors admire your home. And your sense of style.

---

# UNCOMPROMISING PRECISION

PIRNAR *Premium* entrances are strangers to compromise. Every component fits together with unparalleled precision. Joints, gaps, surface machining, solid construction and sophisticated equipment – every millimetre counts as a stepping stone to perfection. Perfection that has taken thousands of hours of development, design and exquisite processing. Every PIRNAR entrance is the result of many years of hard work and experience gathered by our experts.

Every PIRNAR *Premium* entrance that leaves our production line is proof of what human hands and minds can achieve. Proof that excellence is thought-out and planned rather than an accident. We know no other way. You deserve a masterpiece in your home.

handbuilt by  
**PIRNAR.**

for the  
**Smith**  
family

---

# SHOWCASE YOUR UNIQUENESS

Nobody notices average people – nor average entrances. PIRNAR *Premium* are not just doors, but rather an attractive design icon that reflects your character. Every model is a masterpiece designed and built to perfection. Each detail, dimension and material is carefully thought out so that they form an impression of perfection.

Nevertheless, you can create your own, recognisable piece that includes your personal touch. Remarkable illuminated handles, fitted illuminated inscriptions, various opening systems and magnificent Grande dimensions are available on request for all models.

You are unique. So is your home. Show that with your entrance.

---

# PREMIUM

Stylish and meditative, pure and free of any superfluous details. It is a symbol of a house ruled by inner peace and balance. By looking at it, you will be reminded every day that you are coming from hectic chaos into the quiet sanctuary of your family home.

A lush garden scene at night. In the foreground, there are several large, vibrant green ferns. Behind them, a wire mesh fence runs across the middle ground. Several trees with thick, gnarled trunks and dense green foliage are visible. To the right, a building with a light-colored stone or concrete wall is partially visible, illuminated by warm, yellowish lights that create a soft glow and cast shadows on the plants. The overall atmosphere is serene and natural.

*It stands out in every environment*

You will always find your way home  
easier in the urban jungle.

# It's your time to shine

Not everyone can be a shining example to others. You are. You are an example of what you can achieve in life. You are proof that having a vision, courage and perseverance allows you to tackle all obstacles and create light where there was once darkness.

Just like PIRNAR entrances. When they light up, it looks like magic. The night is no longer the dark part of the day, it is instead a lightshow that does not end until morning. A handle with enigmatic illumination, abundant light decor on the door itself, a softly lit doorstep. The awe never ends. The entrance – no, the home itself – comes alive.

Your home is now warm, inviting, comfortable and safe. Shine like a star!

---

# PREMIUM CLASSICO

A home with a respectable age and the romantic touch of the past needs something special. *Premium Classico*, with its timeless beauty, perfectly matches a facade of a bygone age. Every Classico door ornament is poetry, worth viewing at length and with respect, the same as your home.

Grande.  
For the grand

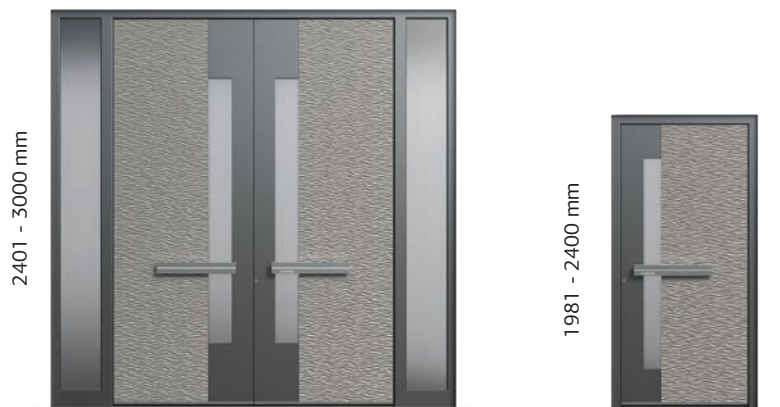

## SOMETIMES SIZE DOES MATTER.

Spacious rooms with high ceilings, majestic villas, castles and masterpieces of modern architecture cannot be fitted with a run-of-the-mill entrance. And some simply refuse to have a regular-sized entrance. PIRNAR *Premium* entrances can be produced as Grande entrances, measuring up to 300 cm in height and 280 cm in width. Along with side elements, they create an impression of breathtaking grandeur.

Grande is a world of unparalleled elegance. It is an entrance for spaces and people that are larger than life. When size matters, choose PIRNAR *Premium Grande*.

GRANDE  
double door with side lights

# Relaxing warmth

Feeling at home is priceless and cannot be bought. The warmth of a home is something we create with our nearest and dearest in the intimate settings of our homes. As for the warmth produced by heating, that is something we can prevent from escaping.

This is an area in which PIRNAR *Premium* can hardly be matched. It features of the best thermal insulation in the world with a thermal conductivity coefficient of  $0,67\text{W}/\text{m}^2\text{K}$  results from carefully selected materials and impressive thickness. PIRNAR *Premium* entrances will never let you down. They will keep your home warm on the inside and elegant and admired on the outside. Which is the least someone like you deserves.

$U_d$  (thermal transmittance) = **0,67 W/(m<sup>2</sup>K)**

Triple glazing

---

## Outside noise should stay outside

Your home is your oasis. It deserves respect. Having invested so much time, thought, energy, love and expectations in it, it is your most precious place. The home is more than just a space, it is also the feeling of peacefulness, quiet and tranquillity. Without it, it just does not feel quite like home. Outside noise is an unwanted intruder – as are all the worries we bring home from the world.

That is why PIRNAR entrances are soundproof. Several layers of natural materials such as aluminium, wood and glass provide protection that keeps the street, vehicles and neighbours from entering your home. PIRNAR *Premium* entrances will keep everyday noise – along with everyday worries – firmly outside.

**do 42 dB\***

\*valid for PIRNAR PREMIUM LEVEL MODEL 1004/1005 with VSG66/2 glass.

# Aluminium, wood or both

PIRNAR Premium entrances can be made out of aluminium, wood or a combination of both. You are greeted by the uncompromising strength and solidity of aluminium or caressed by precious wood upon entering your home. The thickness of all types of constructions ensures flawless opening and the maximum possible thermal and acoustic insulation.

All aluminium models are reinforced with profiles of extremely light carbon fibre material, which is several times stronger than steel. This ensures that PIRNAR Premium doors do not warp, even during the most extreme temperature changes.

Only the best know what they want. Forget any limitations. Feel free to choose.

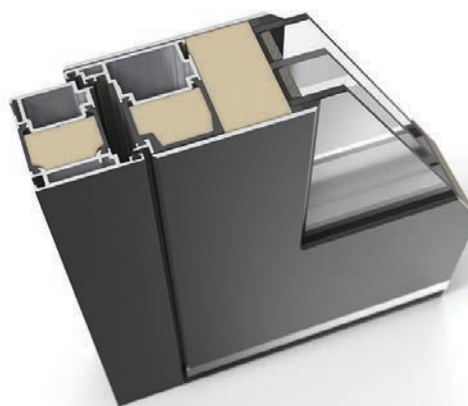

## Standard equipment aluminium

### ALUMINIUM PREMIUM CARBON

A safe, extremely rigid and excellently insulated aluminium construction, reinforced with a carbon fibre profile. The double-sided monoblock construction allows for the creation of the most beautiful shapes.

# Standard equipment Wood / Wood-alu

## WOOD-ALU PREMIUM

An extremely rigid safety construction made out of solid wood, reinforced with a steel profile. The external side is covered by aluminium, which ensures increased durability and does not require any maintenance. Excellent insulation is provided by the triple sealing of the door frame and leaf, the threefold thermal insulation glazing and the thermal threshold.

# Make an impression with a unique bar handle

Handles are the most personal part of the door. Every resident touches it at least a thousand times a year, which is why PIRNAR pays special attention to them. We select one of the basic forms, either round or angular, and determine the exact length. To ensure the best impression and a personal touch, we have created several series of unique illumination upgrades of handles that use patented technology and that were awarded the prestigious international German Design Award Special 2019.

## AVAILABLE DIMENSIONS

Please contact the Sales Department for further details on the full range of handles and illumination upgrades.

## BASIC SHAPES

ROUND

ROUND

ANGULAR

ANGULAR

NERO EDITION

## LUX

Soft ambient illumination of a vertical or plain door handle illuminates the entire house, creating a beautiful and magical atmosphere and feelings of safety and comfort in your home.

## LABELUX

The technology patented by PIRNAR will make your surname or any other inscription shine out from the surface of a handle, fully levelled with the surface. This magical detail remains even while the handle is in use.

Welcome to  
**PIRNAR's**  
digital world

## MAGMALUX

An astonishing game of light, where your hand touches the doorknob or handle. Playful patterns facilitate an unfathomable game of reflections, which transforms a prestigious door into an even more illustrious entrance. PIRNAR's patented technology.

Welcome to  
**PIRNAR's**  
digital world

## CRYSTALUX

When it touches the handle, the hand is greeted by a large, polished piece of crystal glass with wonderful shapes and reflections. The impression of a jewel bounded in metal is especially striking in the twilight when it magically shines.

digital world

# Additional Equipment

The choice of door handle and accessories underlines your style and leaves no doubt about your sense of aesthetics.

Please contact the Sales Department for further details on the full range of handles and illumination upgrades.

---

## Relax

Take advantage of upgrades that offer top notch comfort and safety. Open the door by using only a finger. Forget about searching for the key or being left standing in front of the entrance without it. Treat yourself with a secure automatic locking system, connection to the intercom or remote control system. With high-tech fingerprint technology you will stay safe and become master of your home.

**Let our award-winning masterpieces impress you in person! Get a real feel for them in our showroom.**

Pirnar models are protected by copyright. We reserve the right to change prices, technical descriptions and fittings without prior notice. Images are symbolic and can not always reflect the exact condition. Variations in colour may occur due to the technical printing process. Colours should be checked using the RAL colour chart or wood samples.

The varnished surfaces of ALU Pirnar entrance doors are exceptionally colour persistent, which is attained with special electrostatic powder-coating on a previously chromated base. Small deviations in the varnished surfaces, not visible when viewed from a distance of 5 m from the outside or 3 m from the inside in normal daylight, are not considered to be faults (RAL RG 631 quality standard provision).

Wood is a natural product therefore the surface of the same wood type may display colour differences. As a result, small discrepancies from the colour samples are possible. Sometimes these natural wood characteristics can not even be eliminated with glazing. The resulting colour discrepancies are therefore not a reason for complaint or reimbursement.
